

Mission Z: Rogue Generation Empowering Yourself with 2020 Vision

What is it that many early-stage employees and teams fail to learn about workforce innovation...until other companies teach them a lesson?

In an age where electronic connections seem to be outpacing conceptual connections, tomorrow's innovation has to be built today. The confluence of technology, mobility, and the up-and-coming generation Z changes the game for how we learn, how we empower ourselves, and how we innovate. **Do we have what it takes in 2016 to unleash our full potential to realize our vision for 2020?**

Join us and our guest speaker:

Vidya Krishnan
Head of Learning Services
Ericsson

Boost your career... learn and network with other women in technology like you!
